

SWLA Projects Report 2020 Updated 05.19.2020

Compiled by the Southwest Louisiana Economic Development Alliance, this report reflects projects that are still active or not completed as of May 2020. Some projects may have been announced or started in prior years. All information in this report is either provided by the company themselves or from press releases provided through media. This is not an exhaustive list of all projects in SWLA as some companies are in phases where they are not ready to publicly share information about their projects.

JOBS	Projects Under Construction	Announced Projects	Completed Projects
Temporary Construction Jobs	9,315	23,300	16,250
Permanent Direct Jobs	849	5,265	3,683
Permanent Indirect Jobs	1,794	2,827	4,338
Permanent Induced Jobs	1,619	3,396	4,024
TOTAL ESTIMATED JOBS	13,577	63,083	28,295

Permanent Indirect Jobs

The indirect impact is the value of inputs purchased in subsequent rounds of spending by the supporting industries. So the indirect jobs result from the supporting industries related to each project.

Permanent Induced Jobs

The induced impact (this impact is often called the household-spending effect) is the value of goods and services purchased by all workers whose earnings are affected by the final-demand change. The induced jobs come from the increased spending of the workers that are in the directly impacted project and the supporting industries to that project.

The indirect jobs and the induced jobs are shown separately because there must be an assumption that the additional household spending is occurring in the area of the project.
